by **BigToys**
A PLAYCORE Company

Creating big play environments for little ones.

Our Professional Design Consultants are committed to partnering with early childhood centers and other organizations looking to create inspiring play environments that encourage exploration, experimentation, and discovery for young children. They will help create a master plan that includes site evaluation, environmental design, outdoor learning opportunities, and installation. These dedicated consultants will provide expert support every step of the way to help turn the vision of the ideal outdoor play and learning environment into reality!

Every Project Includes	Learning-Based Play Environments
Over 40 Years Experience	Premium-quality, sustainable equipment has been an American-made playground essential since 1970.
Design Expertise	Our professional Design Consultants have designed thousands of play environments, and their expertise in early childhood is offered complimentary for every project.
Developmental Expertise	Every playground environment is reviewed and assessed to incorporate developmentally appropriate play and learning.
Custom Design Service	Each environment is custom designed to meet the specialized needs of the facility, creating a one of a kind, exclusive design each time.
Outdoor Learning	Activities and standard-based curriculum are provided with each environment to extend outdoor learning.
Play Value	Play elements address key development domains such as; social/emotional, physical, sensory, cognitive, and communication.
Age Appropriate Options	Safety compliant, exclusive play equipment, available for children from 6 months to 5 years.

Creative Arts

Promote children's learning and self expression with outdoor creative arts.

Outdoor Classroom

Group several weather-resistant outdoor tables and benches under a tree for an instant outdoor classroom.

Science

Introduce graphing basics to young archaeologists who dig for fossils at the sandbox coordinates.

Sand & Water

Sand activities provide multi-sensory opportunities to explore, discover, and experiment.

Cozy Spots

Children enjoy quiet social spaces to gather, rest, observe, or take a break from activities around them.

6-23 Months

Structures and independent activities specially designed to meet the needs of pre-toddlers, toddlers, and preschoolers.

Gross Motor

Help children develop gross motor skills while having fun with age-appropriate equipment.

Music & Movement

Amplify play experiences with sound and dance.

Incorporate **standards-based** playground activities to the play environment that stimulate creativity, imagination, and learning.

Imagine

Design

Visualize

Your Early Childhood Design Consultant will provide:

- Curriculum-based activities to use within the play environment
- Supervision guides and training developed by industry experts
- Maintenance guidelines and training to protect your long term investment

OUTSIDE 8-3/8" X 11"

We understand that you can't take a one-size-fits-all approach to designing play environments. That's where our early childhood Design Consultants come in.

Each customer is guided through the design process with a dedicated early childhood design specialist; industry experts who will help create a play environment that fits your needs, space, and budget.

Imagine Using sophisticated CAD programs we convert your BIG ideas to a master site plan

Design Next, we advance the idea phase with realistic 3D digital designs that incorporate equipment and landscaping

Visualize Need a little help visualizing your space? We offer hand-crafted models to bring your future site to life

NatureGrounds®

Putting nature into play™

Designing Play Environments that Integrate Manufactured Play Equipment with the Living Landscape

The purpose of **NatureGrounds** is to create a dramatic shift in the standard playground development process by deliberately designing nature back into children's lives, not only to benefit children's play, but also to engage communities in working together to create richer play experiences for all users. PlayCore has partnered with the Natural Learning Initiative, College of Design, NC State University, to offer an educational resource designed to help professional and community activists promote naturalized playgrounds.
